

Water Analysis and Audit 2009

In Good Taste

Here's the test analysis of the mineral content that makes *Neverfail* taste so good.

	Units	NSW	VIC	N.QLD	S.QLD	WA	SA
Chloride	mg/L	19	42	3.7	12	33	49
Calcium	mg/L	2.5	20	0.37	9.8	1.3	12
Magnesium	mg/L	8.4	26	0.66	2.9	3.2	13
Potassium	mg/L	0.69	9.9	1.4	2	0.61	3.1
Sodium	mg/L	14	35	5	20	20	30

Neverfail goes for gold

Each year, we undergo quality audits by accredited, independent auditors who spend several days in each bottling plant examining procedures, documents, records and equipment.

We're proud to report that all our plants passed their audits with their best results ever, confirming our international best practice (gold) status.

We achieved compliance with the following best-practice standards:

- ✓ Australasian Bottled Water Institute (ABWI) 'Model Code' - quality standards designed specifically for the bottled water industry.
- ✓ Hazard Analysis Critical Control Point - international food safety program aimed at identifying and controlling critical points in the production process.
- ✓ The Coca-Cola Quality System Cold Drink and Manufacturing - a worldwide audit program carried out on all Coca-Cola bottling plants.
